

Metals for Industrial and Technical Applications

We are committed to the supply of metals and industrial raw-materials. Besides so-called industrial metals we offer a wide range of other metals and alloys – for a variety of technical and metallurgical applications.

DELIVERY PROGRAM

Wire Rod Sheets

- Nickel 99.2 / 99.6 / 99.9
- Nickel-Base Alloys

- Copper ETP, OF, OFE, DXP
- Copper-Base Alloys

- Electrical Resistance Alloys
- Thermoelectric Alloys

- Titanium, Grade 1 to 5
- Zirconium
- Austenitic and Ferritic Steels
- Special Alloys

Anodes for Electro-Plating

- Copper Nickel Brass Zinc Silver Graphite
- in various shapes and sizes

Pure- und High-Purity Metals

Nickel Chromium Cobalt Iron Copper
Manganese Silicon Magnesium

Long-lasting personal experience, best contacts in the relevant markets and direct relations to manufacturing plants enable us, to submit an offer for nearly any demand – starting with crude metals up to manufactured grades.

Please let us have your enquiries.
